

GoProtect

HEAVY DUTY SURFACE CLEANER

Before Cleaning

After Cleaning

Before Cleaning

Natural Stone

A CLEANER TO REMOVE GENERAL SOILING FROM SURFACES

PRODUCT DESCRIPTION

- A powerful and effective degreasing cleaner.
- Formulated with biodegradable components.
- Removes stubborn, greasy stains & soiling caused by either atmospheric or industrial pollution.
- Particularly suitable for various indoor and outdoor horizontal substrates : floors, paved ground surfaces... made of : concrete, cement, natural and artificial stone, terracotta, porcelain, tiling, stoneware, marble, etc.
- Does not alter the appearance or aesthetics of surfaces being treated.
- Always carry out a test on a small area first

ADVANTAGES AND CHARACTERISTICS

- Non-corrosive to most surfaces when used diluted.
- Do not use neat on aluminium.
- Water-borne product.
- No need to pH neutralize after rinsing when used in its diluted state
- Particularly suitable for horizontal surfaces.
- Does not alter surface being treated
- Biodegradable.
- Easy to use;

TECHNICAL DATA

- Physical State at 20 °C : Liquid
- Appearance : Pale Yellow
- pH : 13 ± 0.5
- Boiling point [°C] : 100 °C
- Density : 1.06
- Solubility in water [vol/vol] : Fully soluble
- Flash Point [°C] : Not applicable
- VOC : 80 g/l
- Odour : Mild characteristic odour

APPLICATION

- Shake the container well before use
- Always test apply on a small hidden portion of the substrate requiring treatment.
- Use neat on heavy contaminated surfaces or diluted by adding 1 part product with up to 20 parts water depending on the staining to be removed:
 - Heavily soiled surfaces eg. Garage workshops - use neat
 - Worktops & kitchen floors – 1 part product + 5-10parts water
- Use a low pressure hand spray unit or brush.
 - Apply the product liberally.
- Allow the product to act on surfaces for:
 - lightly soiled : 1-2 minutes
 - heavily soiled : 5-10 minutes
 - for deeply penetrating lubricating oil stains it may be necessary to apply the product twice allowing 10 minutes between applications.
- Whilst the surface is still wet, thoroughly rinse external surfaces with a high pressure water jet at 80-100 bar. For optimum results use hot water at around 80°C, and vacuum up using a wet & dry vacuum.
- Treated substrates do not need to be neutralised. (test)
- To prevent future soiling, it is recommended to use a suitable protection treatment such as:
GoProtect MULTI SURFACE PROTECTOR.

PACKAGING

1 litre ; 5 litre container

APPLICATION RATE

- The figures below are approximate and should be used only as a general guideline:
5 -15 m² / litre

CLEANING EQUIPMENT

- Clean tools and equipment immediately after use with water

STORAGE

- Keep in a cool, dry place
- Keep away from extreme cold, do not store in conditions below 5°C
- Shelf Life: 24 months in unopened containers, stored in recommended conditions.

RECOMMENDATIONS

- Wear protective gloves and glasses, and appropriate clothing whilst using the product.
- Do not dilute or mix with any other product.
- Do not apply during rain or frost and when surface and air temperature is < 5°C.

HEALTH AND SAFETY

- Refer to current msds.

KEEP OUT OF THE REACH OF CHILDREN
