Brick Cleaner

A cleaner that removes dirt, soiling and growth from vertical surfaces.

Before

After

Product Description

Brick Cleaner is a high performance renovating cleaner designed to remove organic and microbiological growth contaminants from porous facade surfaces such as natural stone, concrete, brick, terracotta and render.

It is a light gel, and designed to clean and protect surfaces from moss, lichen and algae.

It does not contain solvents, acids or caustic soda and is suitable for many vertical surfaces:

- Building facades
- Domestic & commercial walls
- Retaining walls
- Bridges
- Car Parks
- Render Plasters
- Heritage buildings

Packaging

1 Litre and 5 Litre Containers

Characteristics

- Does not damage the treated material surface, unlike acidic cleaning products
- Contains no acid
- Fast acting and easy to use
- High penetrating power
- Waterborne product
- Brightens most surfaces

Technical Information

- Odour: characteristic
- pH: <12
- Soluble in water
- Specific gravity: 1.09
- Colour: Pale straw VOC: 0g/L
- Protect any surface not being treated that is in close proximity of the area.
- Never mix or add any other cleaners or acid product.

Coverage

- Heavy soiling: 3m²/litre
- Light soiling: 5m²/litre
- The more porous the surface, the lower the coverage rate will be.

Storage

- 24 months from the date of manufacture in original unopened container in a clean, dry and ideally at 10-25°C.
- Keep away from extreme cold, do not store in conditions below 5 °C.

Cleaning Equipment

- Clean tools and equipment immediately after use with water.

Application

- Shake the container well before use.
- Use directly from the container, do not dilute or mix with another product.
- Always carry out a test first to ensure the finished result is acceptable and establish the time required to achieve this result.
- Apply in dry weather, on dry or slightly damp material, using a low pressure sprayer (ie garden sprayer) until surface is saturated. If there is a lot of fungi or moss, brush off as much as possible before application.
- Leave for 30-90 minutes. Allow for more time in cold weather (less than 10 °C). Can be applied during an evening covered with plastic sheeting and left overnight.
- Rinse with water or high pressure washer.
- For best results, (outside use) allow **BRICK CLEANER** to work for 8 hours and whilst there is no rain fall expected.

Recommendations

- Do not apply on to metallic or impermeable materials.
- Do not allow to contact plants, shrubs or grass
- Protect any surface or area not being treated.
- Do not apply during rain, frost or when surface and air temp is <5 °C and >30 °C.
- Do not dilute or mix with any other product.
- Never proceed without carrying out a test patch to ensure surface compatibility.

HEALTH & SAFETY

- Respiratory Protection: Under normal conditions of use where adequate ventilation is available, no special respiratory protection equipment is needed.
- Hand Protection: None required
- Skin Protection: No special protective clothing or skin protection is required under normal conditions of use
- Eye Protection: If there is a real risk of splashing, wear protective goggles
- If swallowed: do not induce vomiting. Contact a doctor or a specialist

KEEP OUT OF THE REACH OF CHILDREN
